Monthly Usage: 690kWh

Rates are current as of June 1, 2022

\*This comparison illustrates the estimated electricity costs for a typical residential customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 690 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule D (non-CARE) service accounts within the jurisdiction of the City of Lancaster and LE's published rates as of May 20, 2022.

As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

| <p>Monthly Usage: 690kWh</p> <p>Rates are current as of June 1, 2022</p> <p>*This comparison illustrates the estimated electricity costs for a typical residential customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 690 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule D-FERA service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.</p> <p>As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.</p> <p>SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.</p> <p>Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.</p>  |                 |                                 |                                  |                 |                                   |

| <p>Monthly Usage: 691kWh</p> <p>Rates are current as of June 1, 2022</p> <p>*This comparison illustrates the estimated electricity costs for a typical residential customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 691 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-D-B service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.</p> <p>As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.</p> <p>SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.</p> <p>Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.</p>      |                 |                                 |                                  |                 |                                   |

Monthly Usage: 691kWh  
Rates are current as of June 1, 2022

\*This comparison illustrates the estimated electricity costs for a typical residential customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 691 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-D-T-CARE service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.

As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Monthly Usage: 691kWh  
Rates are current as of June 1, 2022

\*This comparison illustrates the estimated electricity costs for a typical residential customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 691 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-D-4 service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.

As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

| <p>Monthly Usage: 691kWh</p> <p>Rates are current as of June 1, 2022</p> <p>*This comparison illustrates the estimated electricity costs for a typical residential customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 691 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-D-5-CARE service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.</p> <p>As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.</p> <p>SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.</p> <p>Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.</p> |                 |                                 |                                  |                 |                                   |

Monthly Usage: 910kWh

Rates are current as of June 1, 2022

\*This comparison illustrates the estimated electricity costs for a typical commercial customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 910 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-GS-1-E service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.

As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Rates are current as of June 1, 2022

\*This comparison illustrates the estimated electricity costs for a typical commercial customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 11,667 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-GS-2-R service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.

As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Monthly Usage: 68900kWh Monthly Demand: 135kWh

Rates are current as of June 1, 2022

\*This comparison illustrates the estimated electricity costs for a typical commercial customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 68,900 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-GS-3-E service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.

As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

Monthly Usage: 226445kWh Monthly Demand: 419kWh

Rates are current as of June 1, 2022

\*This comparison illustrates the estimated electricity costs for a typical industrial customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 226,445 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-8-D-SEC service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.

As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

\*This comparison illustrates the estimated electricity costs for a typical industrial customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 650,111 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-8-E-PRI service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.

As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

This rate will vary depending on your service provider and rate plan.</p> <p>SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.</p> <p>Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.</p> |                   |                                 |                                  |                   |                                   |

| <p>Monthly Usage: 63133kWh Monthly Demand: 121kWh</p> <p>Rates are current as of June 1, 2022</p> <p>*This comparison illustrates the estimated electricity costs for a typical agricultural customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 63,133 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule TOU-PA-3-D service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.</p> <p>As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.</p> <p>SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.</p> <p>Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.</p> |                   |                                 |                                  |                   |                                   |

Monthly Usage: 656kWh

Rates are current as of June 1, 2022

\*This comparison illustrates the estimated electricity costs for a typical street lighting customer within the jurisdiction of the City of Lancaster with an average monthly consumption of 656 kilowatt-hours (kWh). This comparison is based on billed usage from January 1, 2020 to December 31, 2020 for all applicable SCE Schedule LS-1 service accounts within the jurisdiction of the City of Lancaster and LCE's published rates as of May 20, 2022.

As of June 2, 2022, SCE's Green Rates for 50% and 100% of energy delivery are closed to all new customers due to full subscription to approved Green Energy resources. Until new Green Rate resources are contracted by SCE and approved by the California Public Utilities Commissions, SCE will maintain a waitlist from customers interested in participating in the Green Rate program. All of LE's rate products are open to all customers. Generation Rate reflects the cost of producing or purchasing electricity to power your home. This rate will vary depending on your service provider and rate plan.

SCE Delivery Rate is a charge assessed by SCE to deliver electricity to your home. This rate depends on usage.

Surcharges represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers. The CRS includes the Power Charge Indifference Adjustment (PCIA), which is either a charge or credit, designed to ensure that SCE's previously committed generation resource costs are not shifted to SCE's remaining customers. SCE bundled customers who participate in SCE's optional Green Rate program also pay a PCIA charge. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.
